Founder's Record of Civic Service

Public work undertaken by the founder as a private citizen before the formation of Nallaatchi Katchi on 18 October 2026

Purpose of this record

Before Nallaatchi Katchi was formed, its founder, MUTHUKUMAR KUSALAVAN alias K. NELLAI JOHN MUTHU, helped residents of Ambasamudram constituency, most of them in Cheranmahadevi block, to take their problems to the government, free of charge and without asking anyone to join or support any party. This record sets out that work from the official grievance records and the petition copies he retains. It is not offered as proof that every petition succeeded: each petition is shown with the status recorded on the government portal. It shows the method of public service from which the Party's founding principles grew. The people helped are described as **citizens assisted**, not as supporters of any party.

1 From Europe to Ambasamudram

1.1 The founder lived and worked in Europe, in the Netherlands and Italy, for about ten years, where he saw public bodies account openly for public money and citizens obtain answers from the administration as a matter of right.

1.2 On returning to Tirunelveli district he began helping rural residents with petitions and government schemes, and opened a free public service centre at Melapudukudi, Pudukudi, in the Cheranmahadevi block (நெல்லை ஜான் முத்து மக்கள் சேவை மையம், புதுக்குடி). The centre writes petitions to the District Collector, the Tahsildar, the Block Development Officer, the electricity board and the revenue department, prepares applications for government schemes, and drafts applications under the Right to Information Act.

1.3 The centre works by six rules: no fee is charged; no party bias is shown; a petition is a citizen's right, not a favour; every petition must obtain an acknowledgement; a petitioner's details are never used for any political purpose; and personal information is protected.

1.4 Each petition follows the same steps:

Listen → Document the facts → Find the responsible office → Find the rule or law → Make a precise request → Obtain the acknowledgement → Follow up → Record the result, including pending

1.5 The conclusion he drew is that good governance should not depend on whether a citizen knows an influential person. Nallaatchi Katchi was formed to build that conclusion into the rules of a political party.

2 Petitions filed through the Chief Minister's Helpline

2.1 Between 24 and 26 September 2026, 34 petitions, each with its own grievance number, were filed through the Chief Minister's Helpline on behalf of residents of South Veeravanallur, Veeravanallur, Pudukudi, Karaikurichi, Vadakku Karukurichi and nearby villages. Each petition was submitted in the citizen's own name, from details the citizen provided.

Subject	Petitions
Housing and house-site pattas	12
Pensions and disability support	6
Community and legal heir certificates	12
Roads, drainage and a ration shop	4
Total	**34**

2.2 The full register is in Annex 1. Every petition was recorded on the portal with the status **Received** on the date of filing; later replies will be added as they arrive.

3 Representative cases

A. Community certificates for children of a Scheduled Tribe

Problem Families of a Scheduled Tribe in Pudukudi, Karaikurichi and Veeravanallur reported that their applications for Scheduled Tribe community certificates had been kept pending or rejected, although school transfer certificates and other official records already record the community and close relatives hold certificates issued through the Revenue Divisional Officer. Without the certificate, children lose admission concessions and scholarships, and one young woman preparing for public service examinations said she had been unable to apply for ten years.

Action Each family's own records were set out, and the District Collector and the Revenue Divisional Officer were asked to accept them as direct evidence and to issue the certificate or decide the appeal.

Record petitions NJM/PS/24 to 28 and 38 to 43. Status on the portal when recorded: Received.

B. Open sewage in Barathi Nagar, South Veeravanallur

Problem Residents in front of the Thangamman Kovil reported that drain work had been abandoned half-way and that sewage had stood in the open for two to three years, outside their homes and on the road.

Action The petition asked for a new drain to be built.

Record petition NJM/PS/12. Status on the portal when recorded: Received.

C. A part-time ration shop for Rajiv Colony, Vadakku Karukurichi

Problem More than 90 ration-card families, many of them elderly people whose children work away from home, travel about three kilometres to the main ration shop for their monthly rations.

Action The petition, filed by the ward member, asked for a part-time ration shop in the colony.

Record petition NJM/PS/11. Status on the portal when recorded: Received.

D. House-site pattas for landless families

Problem Landless families living on daily wages, and widows without a home, asked for free house-site pattas. In one case the 2017 allotment records one survey number while a June 2024 letter from the Cheranmahadevi Tahsildar records another, and the plot has never been measured or handed over. Others said that petitions given at earlier government camps, including a Jamabandhi camp in June 2024, had been acknowledged but not acted upon.

Action The petitions set out the facts and the earlier acknowledgements and asked for field inspection and a decision.

Record petitions NJM/PS/01, 08, 09, 14, 18, 21, 22, 23 and 30. Status on the portal when recorded: Received.

E. Pensions and disability support

Problem Widows without income, and a woman of 84 who first applied for the old-age pension in 2011, asked for the destitute widow pension and the old-age pension. Two residents with long-standing mobility impairments

asked to be assessed by a medical board for a disability certificate and assistance.

Action Each petition stated the facts and the scheme under which help was sought.

Record petitions NJM/PS/03, 06, 07, 17, 19 and 20. Status on the portal when recorded: Received.

4 Petitions to the District Collector and the Block Development Officer

4.1 In July 2026 the founder sent an urgent petition to the District Collector and the Block Development Officer about an uncovered open well at Melapudukudi in a place where children move about, and petitioned the Collector's office about a damaged overhead drinking-water tank at Uppara Colony at risk of falling.

4.2 In August 2026 he prepared a 17-page petition for a house at Pudukudi that has had no electricity connection since 2013–14, relying on a Supreme Court judgment and the Electricity (Rights of Consumers) Rules, 2020.

4.3 All three matters were pending when this record was prepared.

5 How this work shaped the constitution

What the civic work showed	How the constitution responds	Article
Citizens often do not know which office is responsible or how to follow up	The Party helps citizens with grievance petitions and the Right to Information Act	Article 4(3)(d)
Help must never become a favour that has to be repaid	Help never depends on joining, donating or supporting a candidate, and no outcome is promised	Article 4(4)
Claims must rest on documents, and pending matters must be shown as pending	Every field-service entry needs evidence and a person who can confirm it	Article 7(19)
Public office should be earned through service, not money	Field service is required to stand; no marks for wealth or caste	Article 7(19); Schedule 3, rule 8
Public money must be traceable	Audited Party accounts; candidates keep and file election expenditure accounts	Articles 11(18), 12
People who complain must not suffer for it	Protection for honest criticism and reports of misuse	Article 6(3)
Problems are best solved close to where people live	Decisions at the lowest capable level	Article 7(21)

6 Privacy and verification

6.1 The names, telephone numbers, Aadhaar numbers, ration card numbers and addresses of the citizens assisted are withheld from this record to protect their privacy. Screenshots of every petition, showing the grievance number, date and status, are retained and can be produced to the Commission if required.

6.2 Assistance given to a citizen is not evidence of that citizen's political view. The Party's membership and support are shown separately, by the founding minutes and the members' affidavits.
